**Standard Account Code 756: Vehicles                      \$3,068,000**

These funds are required for the implementation of the National Environmental Enhancement Programme (NEEP) as a creative strategy to address the drainage challenges faced in Barbados in every hurricane or rainy season, which result from problems associated with flooding around the country and the other accompanying environmental conditions that impact negatively on communities. The technical capacity of the Ministry of Transport, Works and International Transport in relation to drainage island-wide will be combined with the social care and community

empowerment remit of the Ministry of Social Care, Constituency Empowerment and Urban Development in the implementation of this programme.
